

SPMT Stalls in Piti During Return to Port

Trailer blows fuel line; repair under way, fuel spill has been cleaned up on road

FOR IMMEDIATE RELEASE

Dededo, Guam – Wednesday, February 8, 2023 – The Self-Propelled Modular Trailer (SPMT) experienced a blown fuel line approximately one mile from its destination, the Port Authority of Guam, and is stalled on Rt. 1 in Piti.

Guam Police Department units are managing traffic in the area and advise all drivers to take alternate routes. One northbound and one southbound lane are open. Expect traffic delays in the area for the next few hours.

Updates will be given to the public when available. Log on to [*poweronthemove.org*](http://poweronthemove.org) and social media for updates.

Doosan Ukudu Power and Doosan Enerbility thank you for your patience and understanding.
