

## ***Second Leg of Heavy Haul Transport Begins at 9 pm*** *SPMTs to depart GPA Transportation Shop in Tamuning, head Northbound on Rt. 1*

FOR IMMEDIATE RELEASE

*Hagåtña*, Guam - Monday, February 13, 2023 – The Self-Propelled Modular Trailers (SPMTs) carrying heavy haul components for the Ukudu Power Plant will begin their second leg at 9 tonight. The trailers will be traveling on Rt. 1 Northbound to the new power plant site.

The transport convoy includes two SPMTs, a 16-axle and 18-axle carrying 138.5 metric tons and 125.7 metric tons of cargo, respectively; a Guam Police Department escort, G4S vehicles, and Smithbridge trucks laying out and picking up steel plates for the SPMT to traverse over. The estimated time of completion is 5 am, Tuesday, February 14, 2023.

**NOTE:** Transport times are subject to change.
